We recognized Pink shirt day last Friday during our Friday morning buddy activity and we wore our pink shirts this past Wednesday also. Both days were an opportunity to remind us of and focus on working together to treat everyone with respect and to accept differences, not just on Pink Shirt Day, but every day. Today our diversity is becoming more visible than ever as people continue to embrace their cultures, identities, and true selves in more open and direct ways; making the need to sprinkle kindness and have greater acceptance, respect, and inclusion for everyone. I am very proud of our Quilchena students as we continue to embrace and build a connected, inclusive community. Enjoy your weekend as we enter March and our final couple of weeks before Spring Break.

Supporting STUDENT WELL-BEING

This month, we're highlighting two important parts of children's overall health: nutritious eating and healthy sleep habits. Both play a key role in helping students stay energized, focused, and ready to learn.

Our attached flyers include:

- Great lunch-on-the-go ideas for busy families
- Information on why sleep is so important for children
- Sleep guidelines for different age groups
- Helpful tips for parents on promoting good sleep routines

As well as, please check out this link [The Healthy eating for parents and children - Canada's Food Guide](#).

We hope these resources provide families with simple ways to support their children's learning and well-being.

Vancouver Coastal Health

NURTURING YOUR CHILD'S PHYSICAL HEALTH: SLEEP

Only about half of BC kids say they're getting a good night's sleep 5 days per week¹

Why is sleep important?

- ✓ Good sleep is important for your child's mental and physical health.
- ✓ Sleep helps children feel energized, learn better, concentrate longer, and be more creative.
- ✓ Regular, restful sleep also strengthens their immune system.
- ✓ A well-rested mind makes better decisions and manages stress more effectively.
- ✓ Regular sleep allows the body to develop, grow, and function properly.

How much sleep is enough?

Sleep Guidelines:

- 9 to 11 hours of sleep per night for those aged 5–13 years
- 8 to 10 hours per night for those aged 14–17 years

Aim for:

- Uninterrupted sleep with consistent bed and wake-up times.
- Less than 2 hours of recreational screen time per day.
