Math

EXPO

RECAP

A look back at our Math Expo. Celebrating curiosity,
problem-solving, and learning together!

THANK YOU!

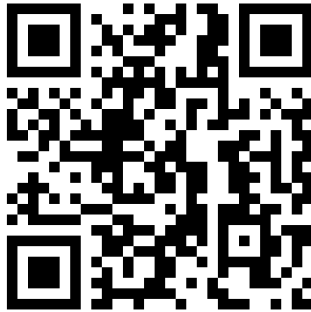

Thank you to all the families who joined us for our Math Expo! We loved having you get a peek into our classrooms, exploring the hands-on activities, and celebrating the many ways students are growing as mathematicians. Your enthusiasm, curiosity, and support help strengthen our learning community. We appreciate you taking the time to engage with our work and hope you enjoyed seeing the math proficiencies in action. Thank you to Richmond Public Library, Karen Leung, and Jonathan Tang for supporting this event. Thank you, families, for being such an important part of our students' learning journey!

MATH GAMES

Face Off

Pyramid

Sum What

Circles and Stars

Salut

Place the Digit

On the Double

Nine Cards

How Low Can You Go?

Scan a QR code to learn how to play one of our favourite math games. Most of these games don't require much. Often, they only require dice, cards, or a pen and paper.

QUESTIONS

to support mathematical thinking at home.

What math
lives here?

What math story
could you make?

Can you find
a pattern?

What fractions
do you see?

Where does math live
in our community?

How can we
measure...?

What shapes
do you notice?
