IMPORTANT

**Extended Absences /
Travel during the
school year**

We are noticing an increasing number of students being taken out of school for family vacations during instructional time. While we understand that family commitments and travel opportunities can be meaningful, it is important to recognize the significant impact these absences have on student learning.

When students miss school for extended periods (sometimes repeatedly throughout the school year), they miss direct instruction, guided practice, classroom discussions, collaborative learning, and hands-on activities that cannot be replicated through worksheets or make-up assignments. Teachers do their best to support students upon their return, but they are not able to re-teach entire units or recreate the full learning experience that takes place in the classroom.

Beyond the impact on the individual student, extended absences also affect the entire class. Teachers must redirect time and resources to help returning students catch up, adjust group work, and revisit previously taught material. This disrupts the flow of instruction and can slow down learning progress for everyone.

Additionally, because taking students out of school for vacation is a parental choice, it is important to note that *teachers are not obliged to provide homework, work packages, or advance assignments for the missed days*. Families should expect that students will need time and support to re-engage with the learning upon their return.

We kindly ask that families make every effort to schedule vacations during designated school breaks. Regular attendance supports consistency, reduces stress, and helps maintain a strong learning environment for all students.

If voluntary absences are unavoidable, please advise your teacher, as well as complete the Extended Leave Form [HERE](#) and return it to the office at least one week prior to departure.

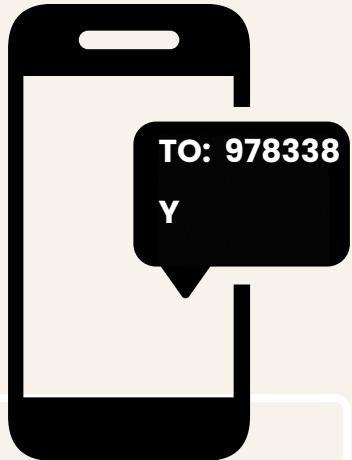

We greatly appreciate your cooperation.

Parent Volunteer Driver Requirements – Updated Procedure

Parents who would like to volunteer to drive students to school field trips and/or team events, are asked to follow our updated procedure:

NEW UPDATE

- Driver Authorization Form: Must be completed before driving for any school event. Must be completed every school year.
- Criminal Record Check: A quick 5-minute free online criminal record check is required. We will provide the link and the school district code necessary to submit. CRC's are valid for two years.
- Vehicle Insurance: Drivers must have a \$1 million minimum of liability coverage. A copy of your insurance must be submitted to the school office.

If you have already completed a Driver Authorization Form this school year, you do not need to submit another form, however if you volunteer to drive again this year a CRC is required, as well as proof of vehicle insurance. If you are unsure whether you have completed a Driver form yet this year, please contact the school office.

With the warmer start to the new year, it's easy to forget that winter weather can still change quickly.

Please ensure your child comes dressed for rain, cooler temperatures, and outdoor play, as we go outside rain or shine. A warm layer and waterproof gear help keep everyone comfortable throughout the day. Keeping extra clothing at school is also helpful.

BE PREPARED FOR ANY WEATHER! WE GO OUTSIDE RAIN OR SHINE

Rain boots

Student Learning Survey 2026 - Parent Input Needed!

The Student Learning Survey (SLS) has been administered every year in BC public schools since 2001. The SLS provides feedback on the implementation of curriculum changes, learning environment, student wellness and satisfaction, student belonging and engagement, and career preparation. It is the only source of province-wide information of children's learning experiences. The Student Learning Survey is being administered to our students in grades 4 and 7 at school. We also encourage parents/guardians/caregivers to complete a survey if they have a child(dren) in Grades 4, 7, 10, 11 and 12. A parent may complete a survey for each child in the targeted grades and the parent survey is available in English and 16 other languages. The parent and guardian/caregiver survey is now available online until Friday, May 1st, and will take approximately 25-30 minutes to complete. Your responses are voluntary and anonymous, and your child will not be identified as a result of your participation in the survey. Any personal or identifying information will be deleted before results are stored. Data will be stored and accessible only within Canada. [Student Learning Survey Link](#)

Your perspective as a parent is valued, and your participation is an important contribution to improving the educational experiences of children.
